

## Permission for publishing pictures

Once in a while we wish to post pictures and videos of the activities and events of the everyday life with us. It may also happen that newspapers and television want to create articles / stories about our life on AKS. Therefore we need a permission from you guardians of such publication, when your children is our natural center of attention. If it is not desired, this choice will be respected and followed by our employees.

I hereby confirm that AKS is allowed to publish images of my child on our homepage/facebook and by any media inquiries.

I do not allow AKS to publish any images of my child.
